

Ba-Gua Compass

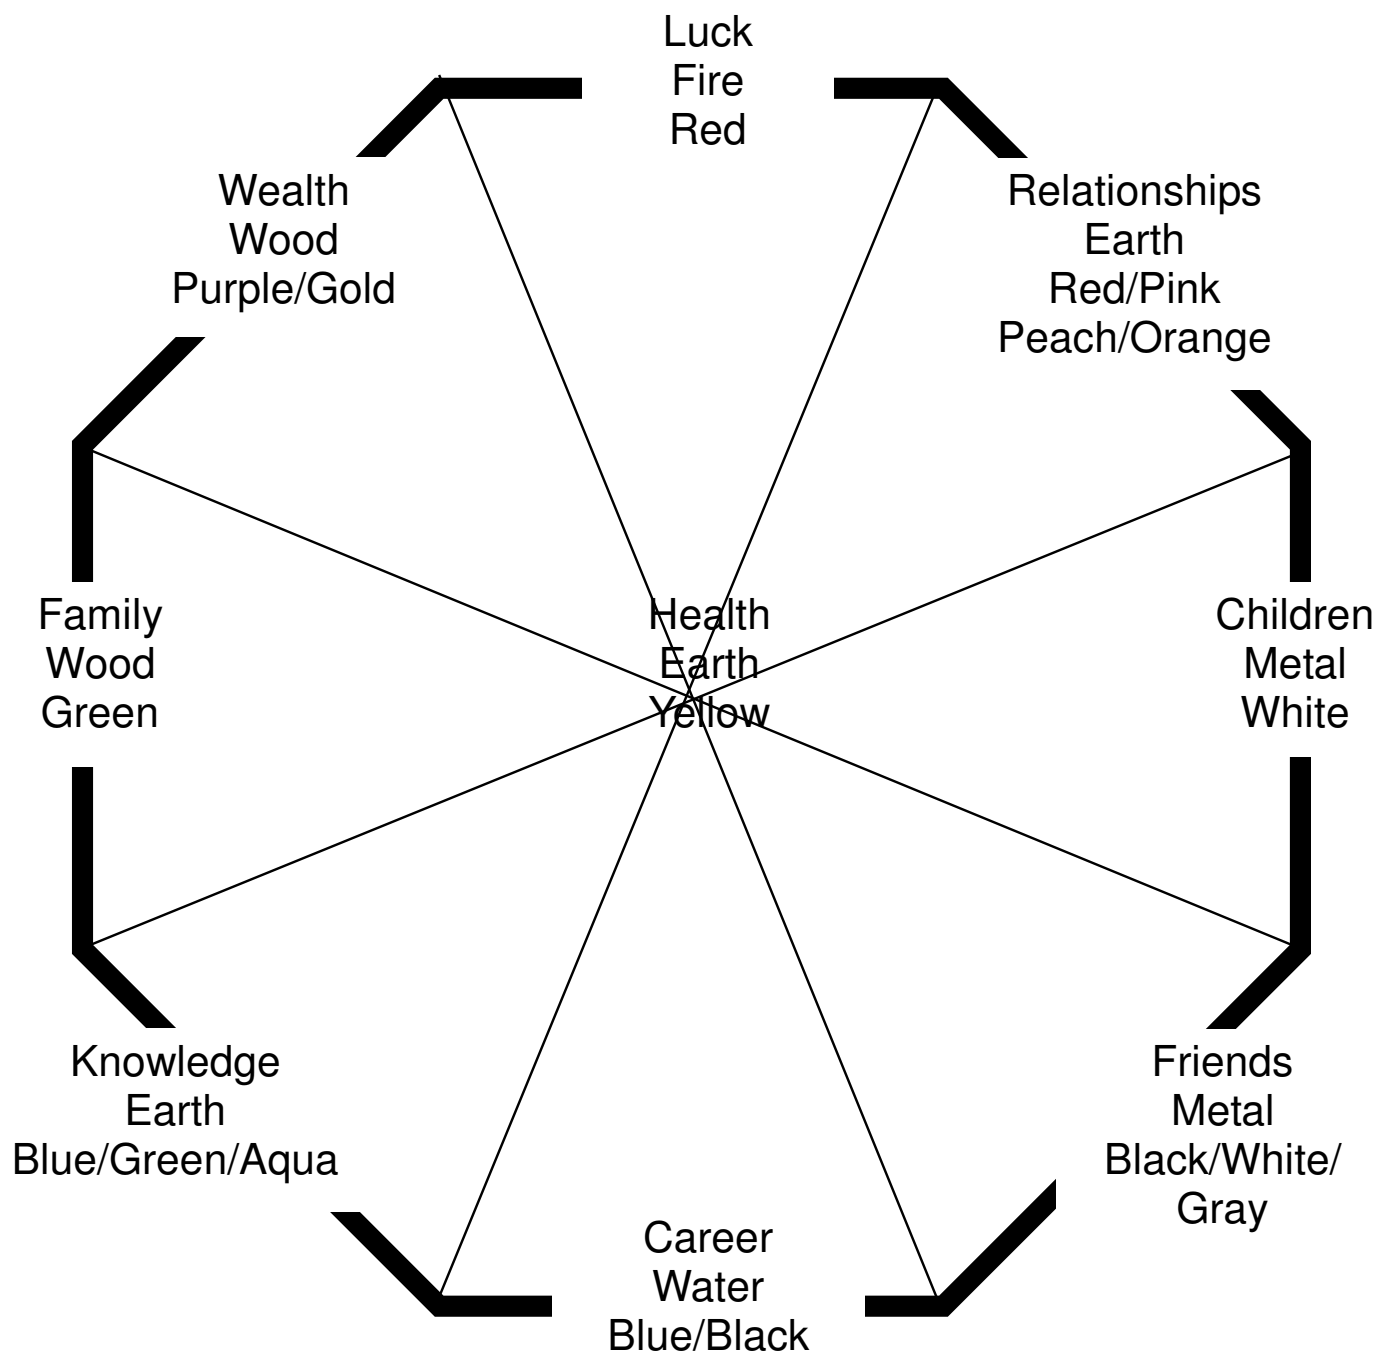

Ba-Gua, which means eight-sided figure, is an octagon that is placed over the floor plan of a house, room or office to locate the different life areas. Career is placed at the main front door.

Ba-Gua Compass

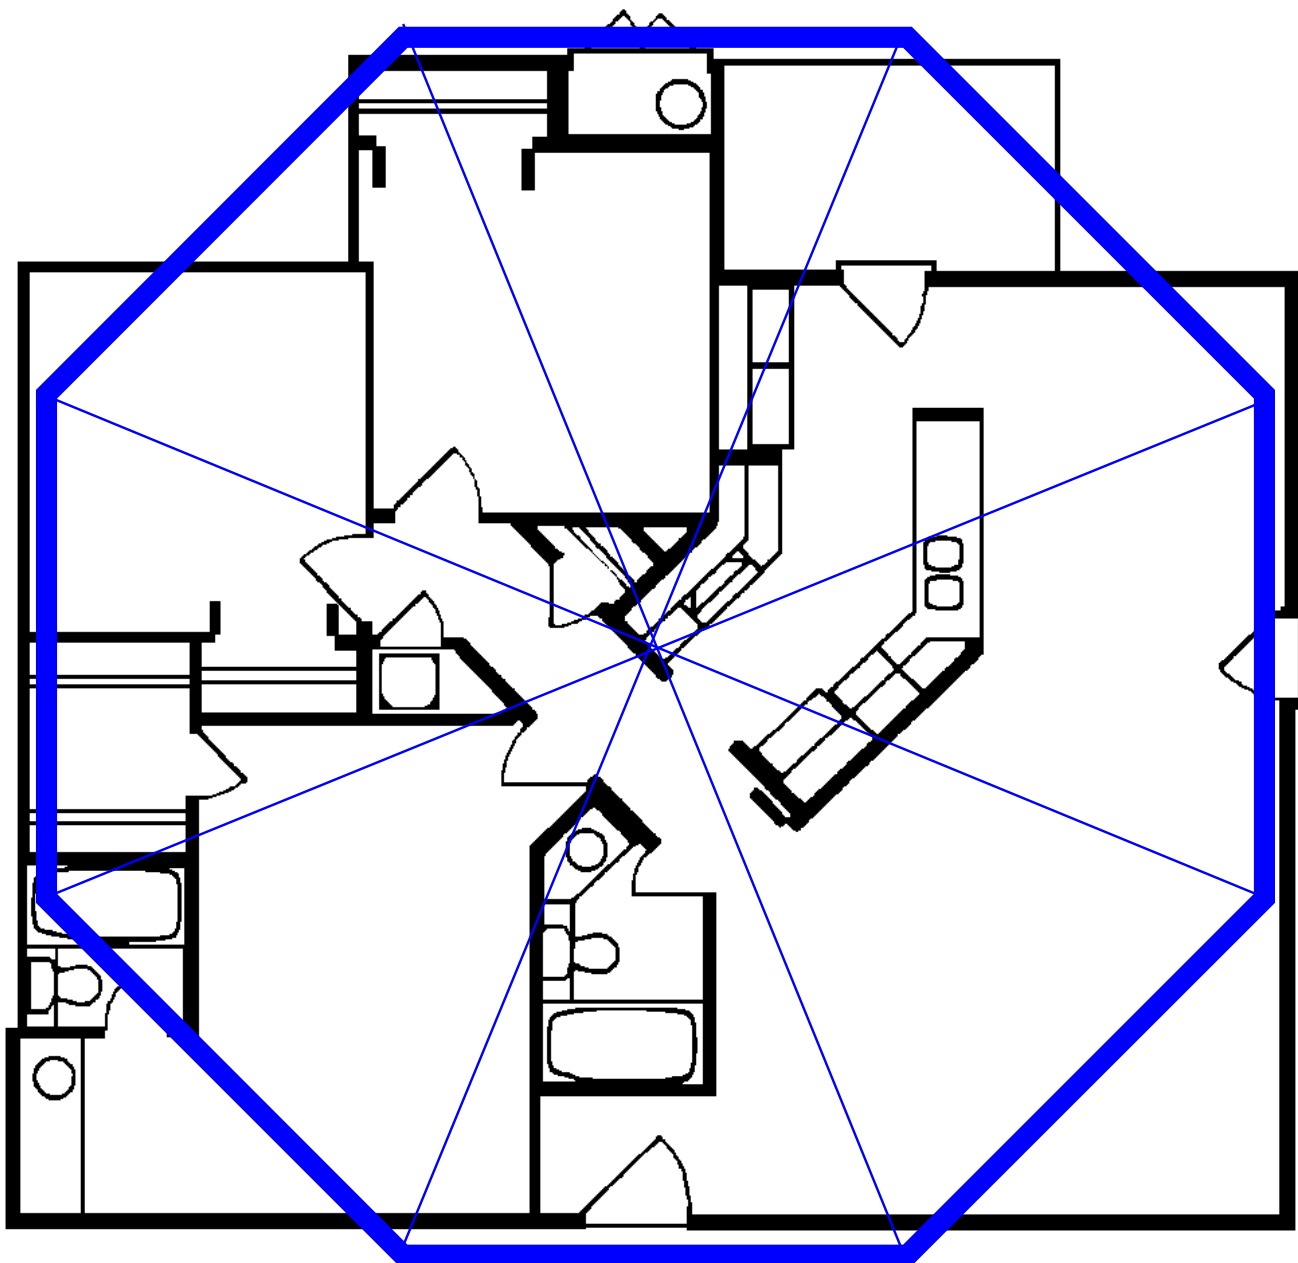

The Ba-Gua can be divided two ways. It can be divided into nine blocks. This harmonizes with the Flying Star method.

Ba-Gua Compass

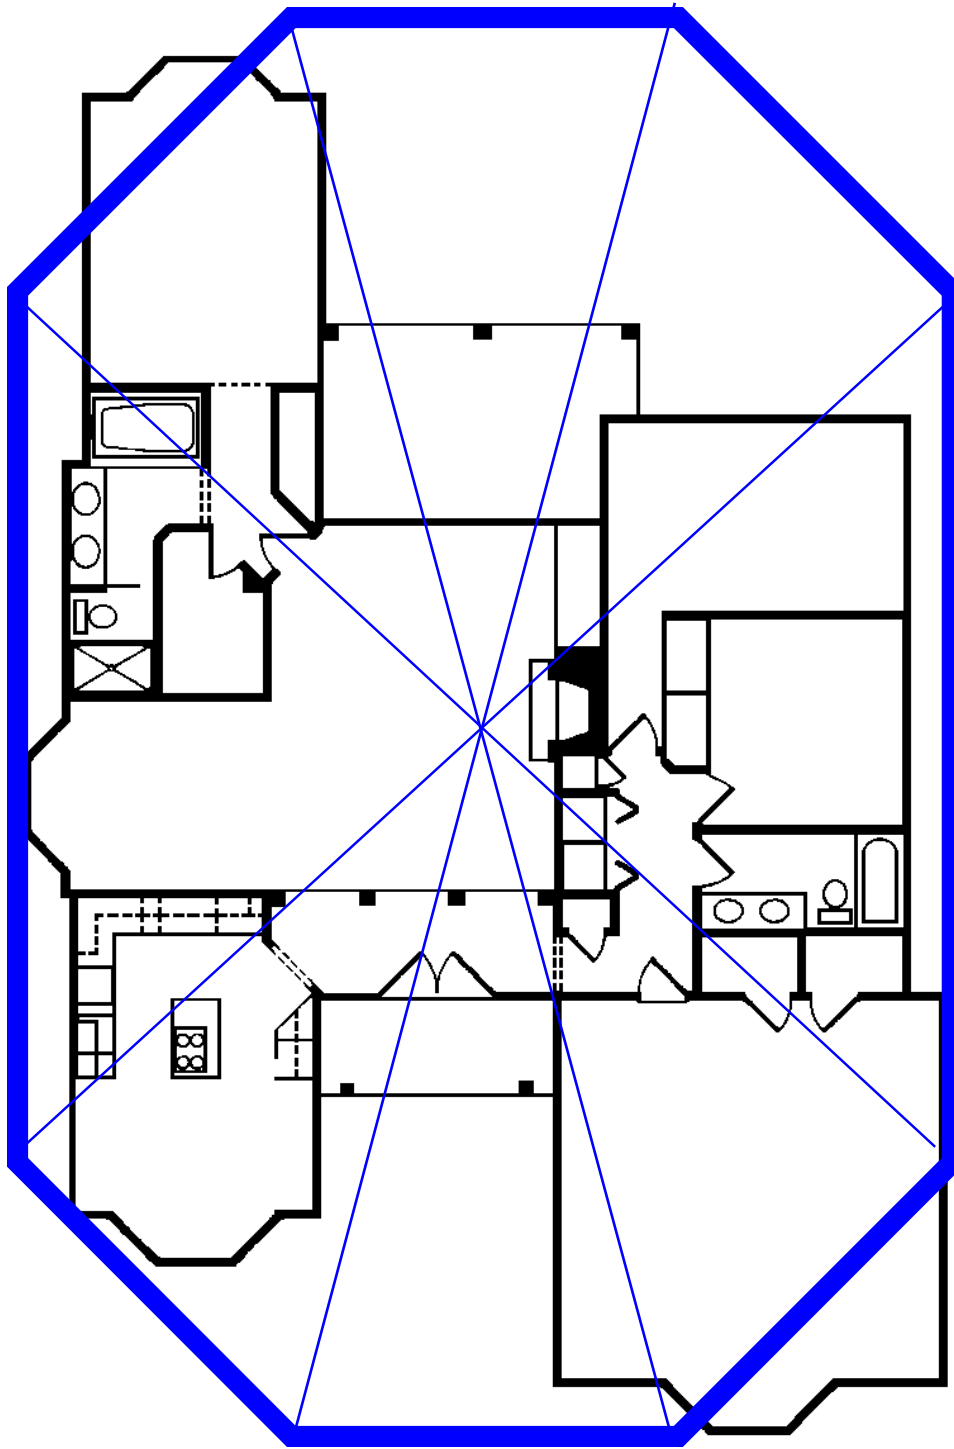

Or the Ba-Gua can be divided into pie pieces which harmonizes with the Compass method of Feng Shui. Both methods work. Choose the one that resonates with you.

Ba-Gua Compass

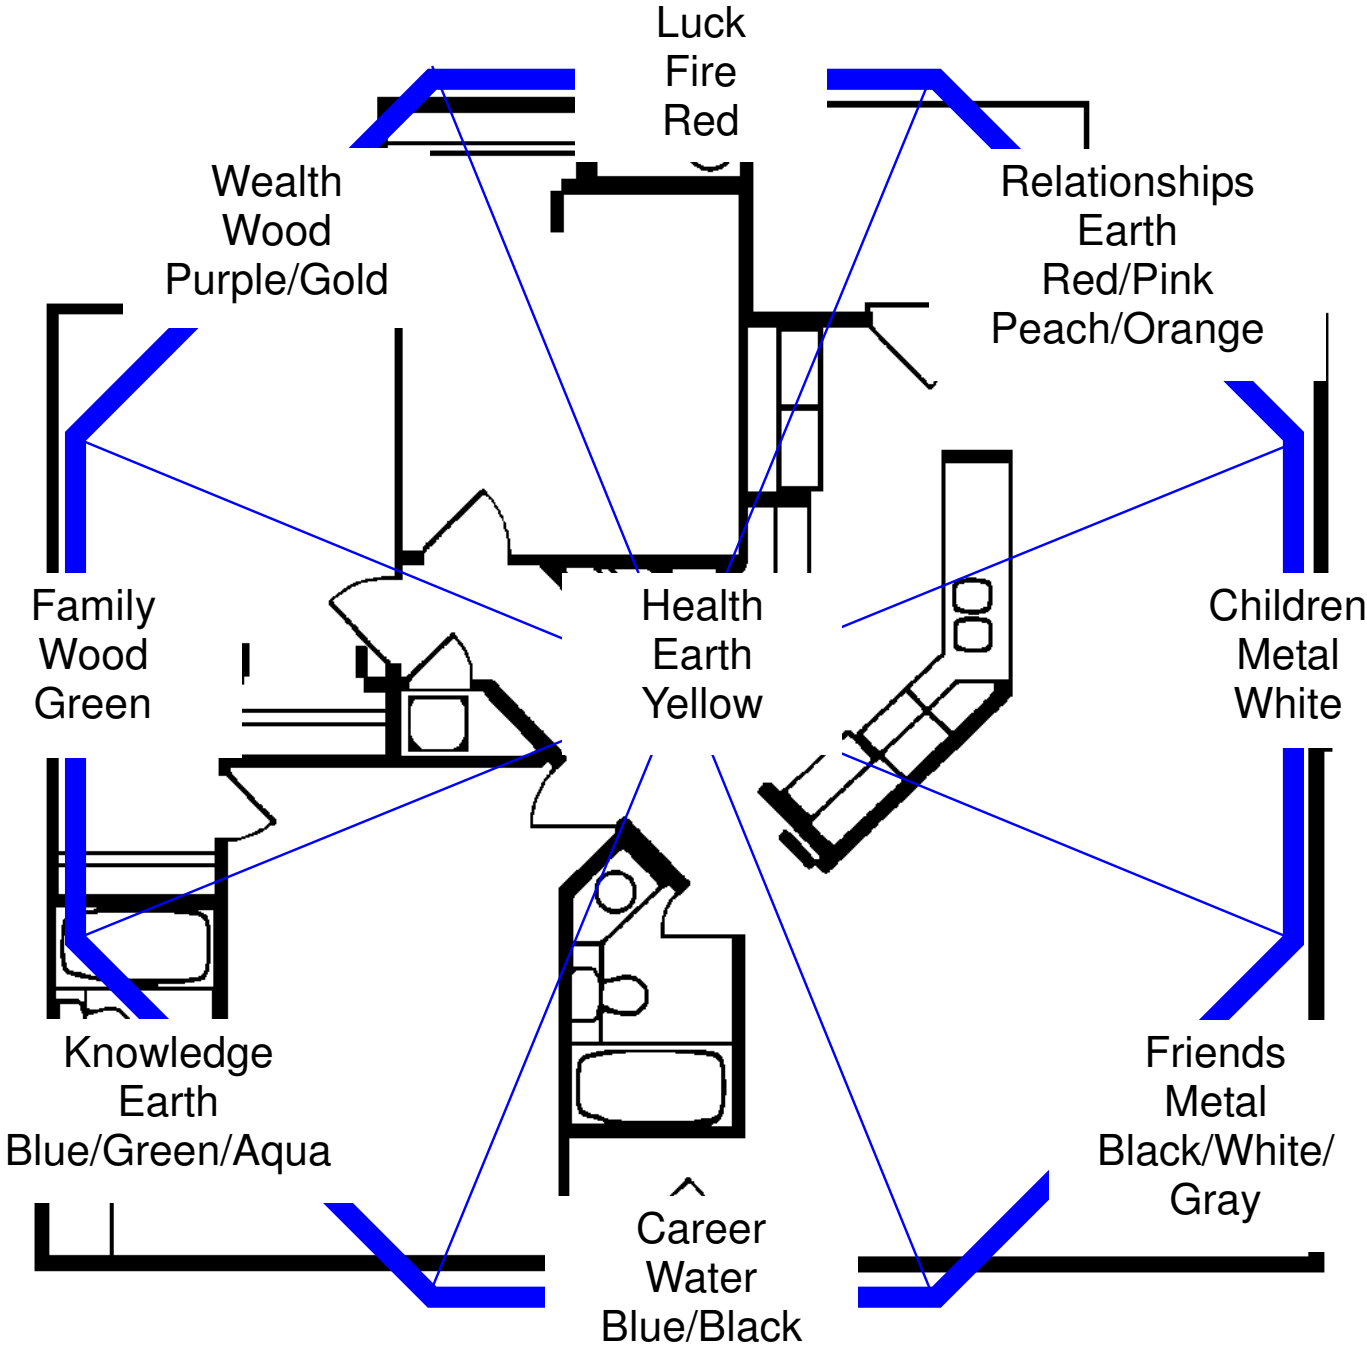

The Ba-Gua is placed over a floor plan.

Ba-Gua Compass

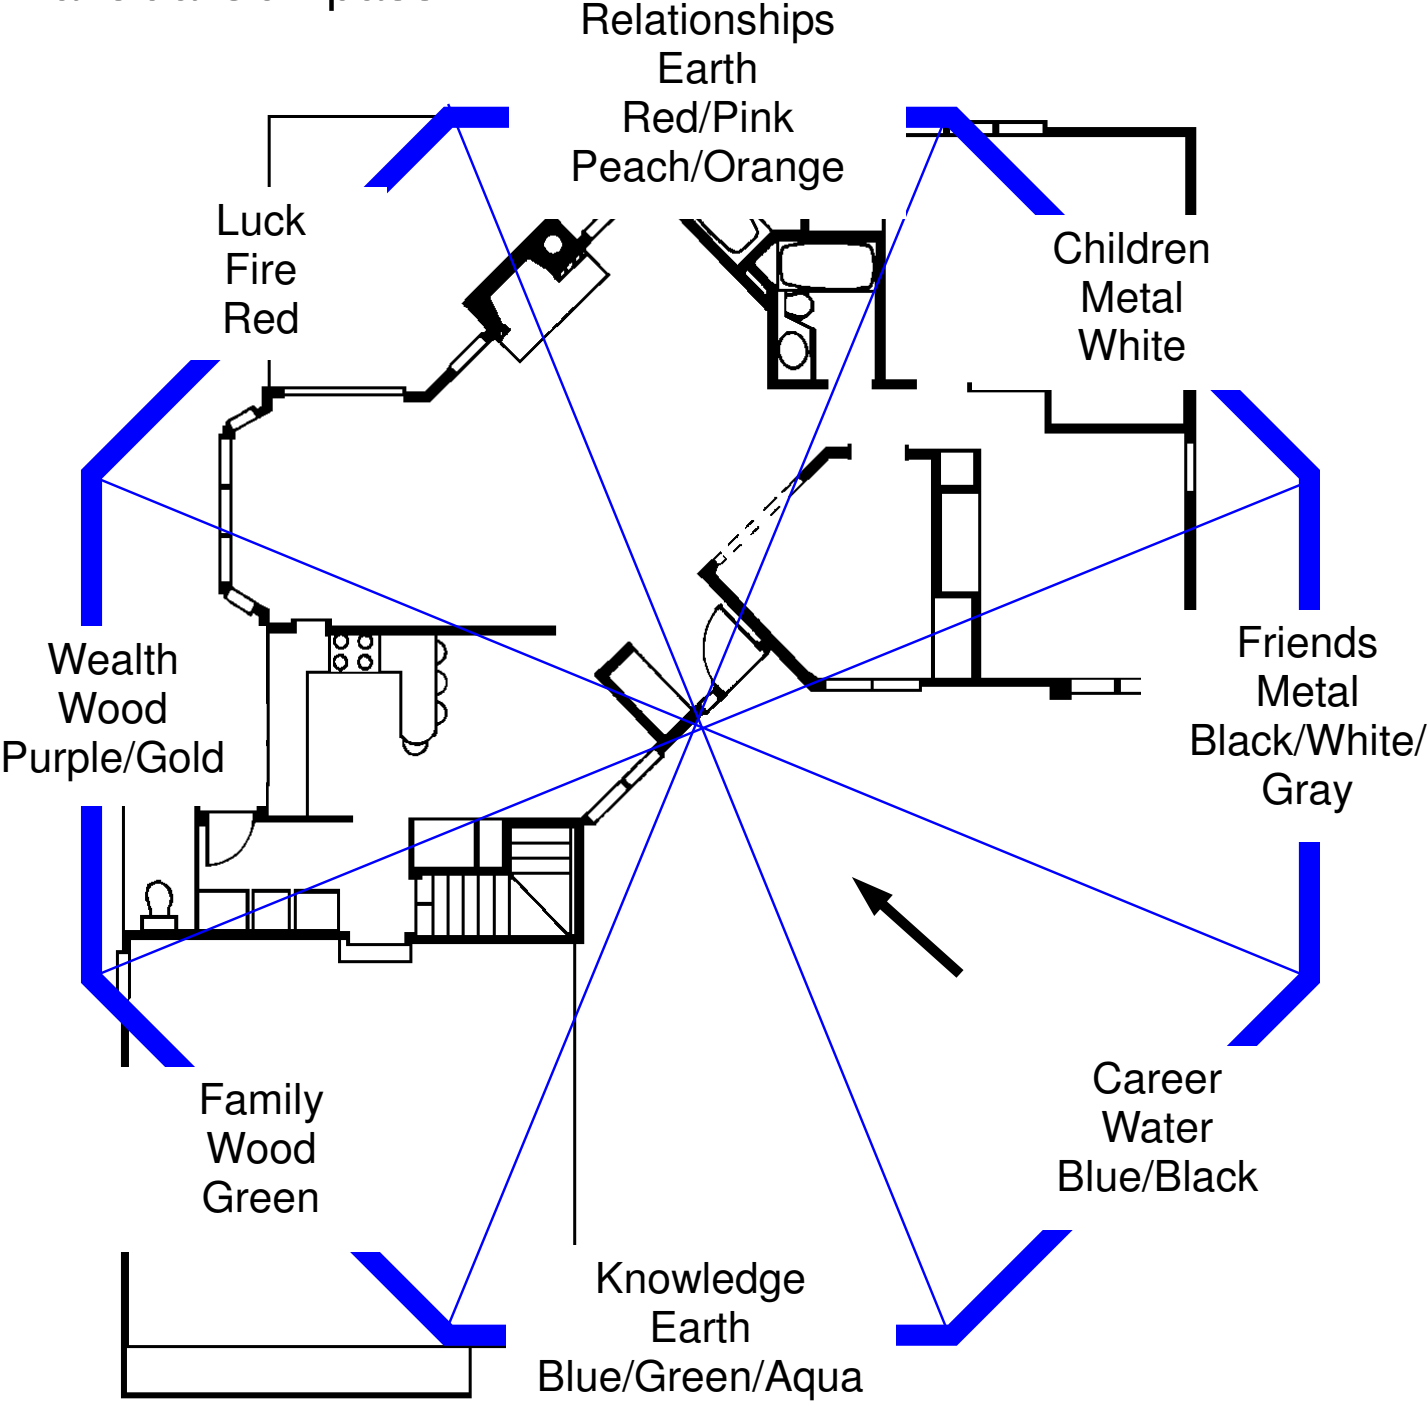

The Ba-Gua is elongated if necessary. Don't worry that some corners of the house seem to exceed the Ba-Gua. They are still included in that area.

Ba-Gua Compass

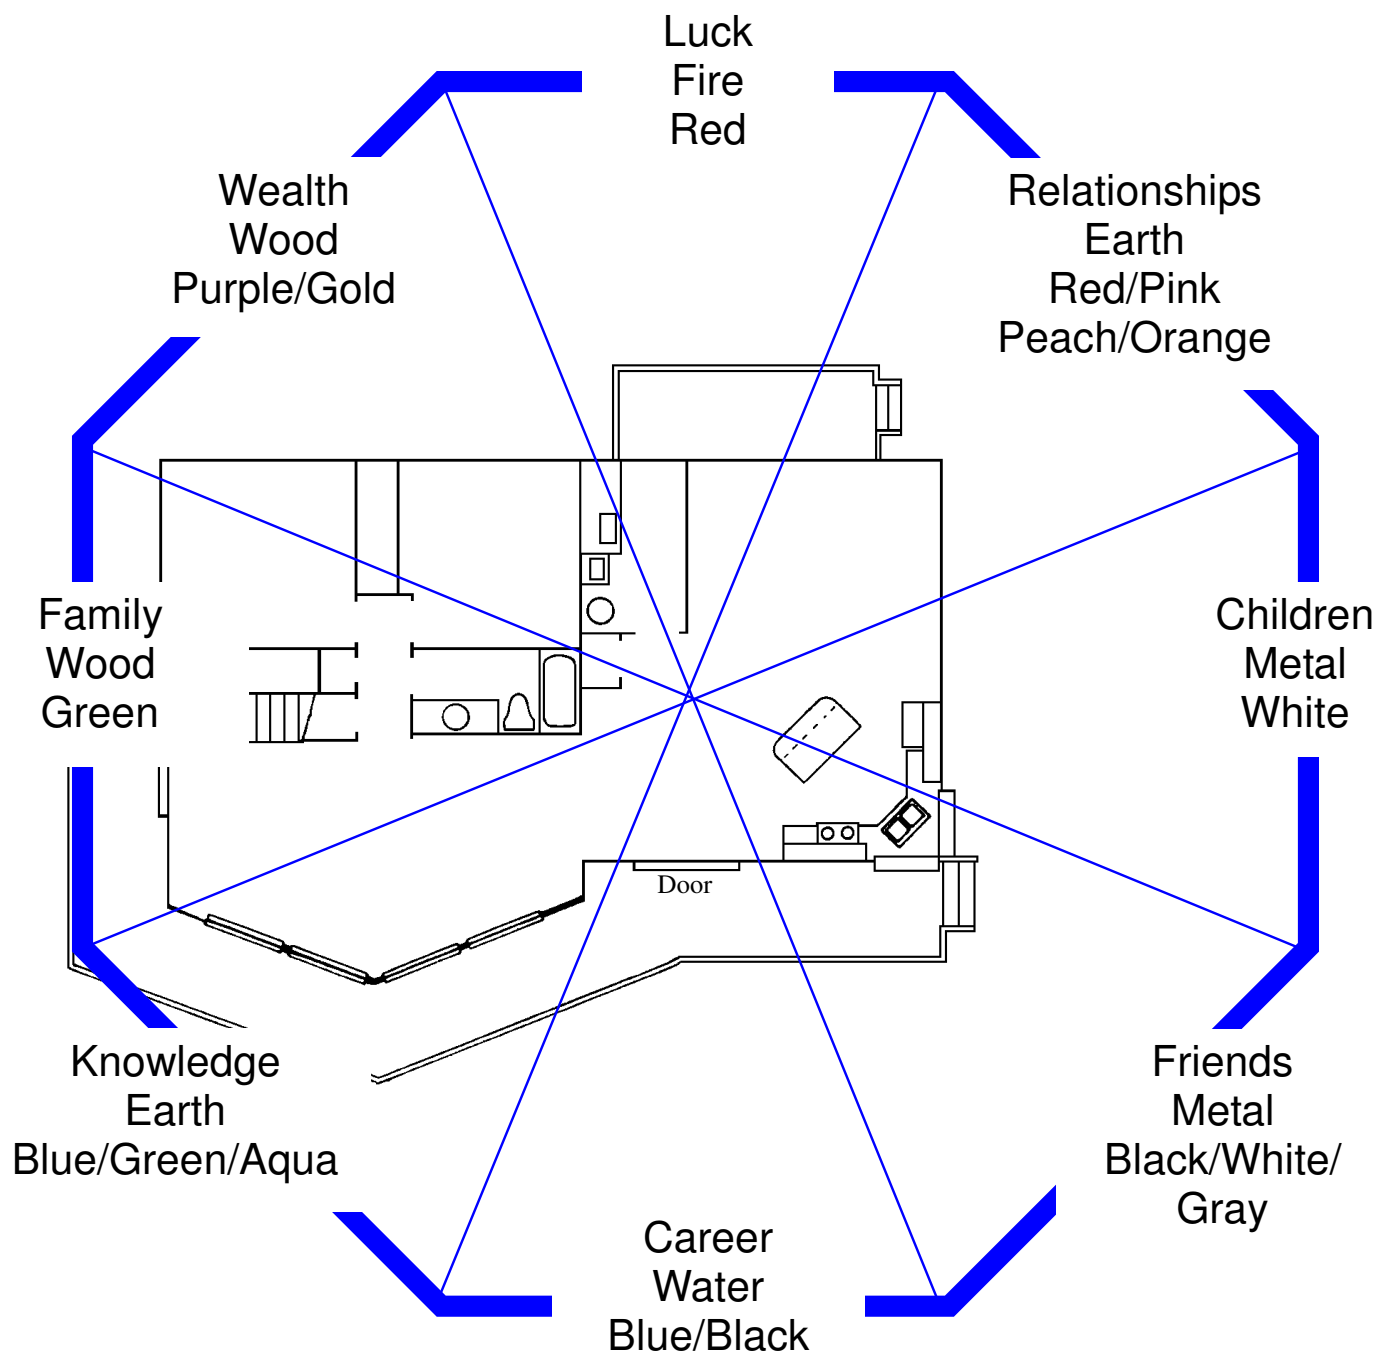

Then the life areas are labeled. Career is placed at the main front door.

Ba-Gua Compass

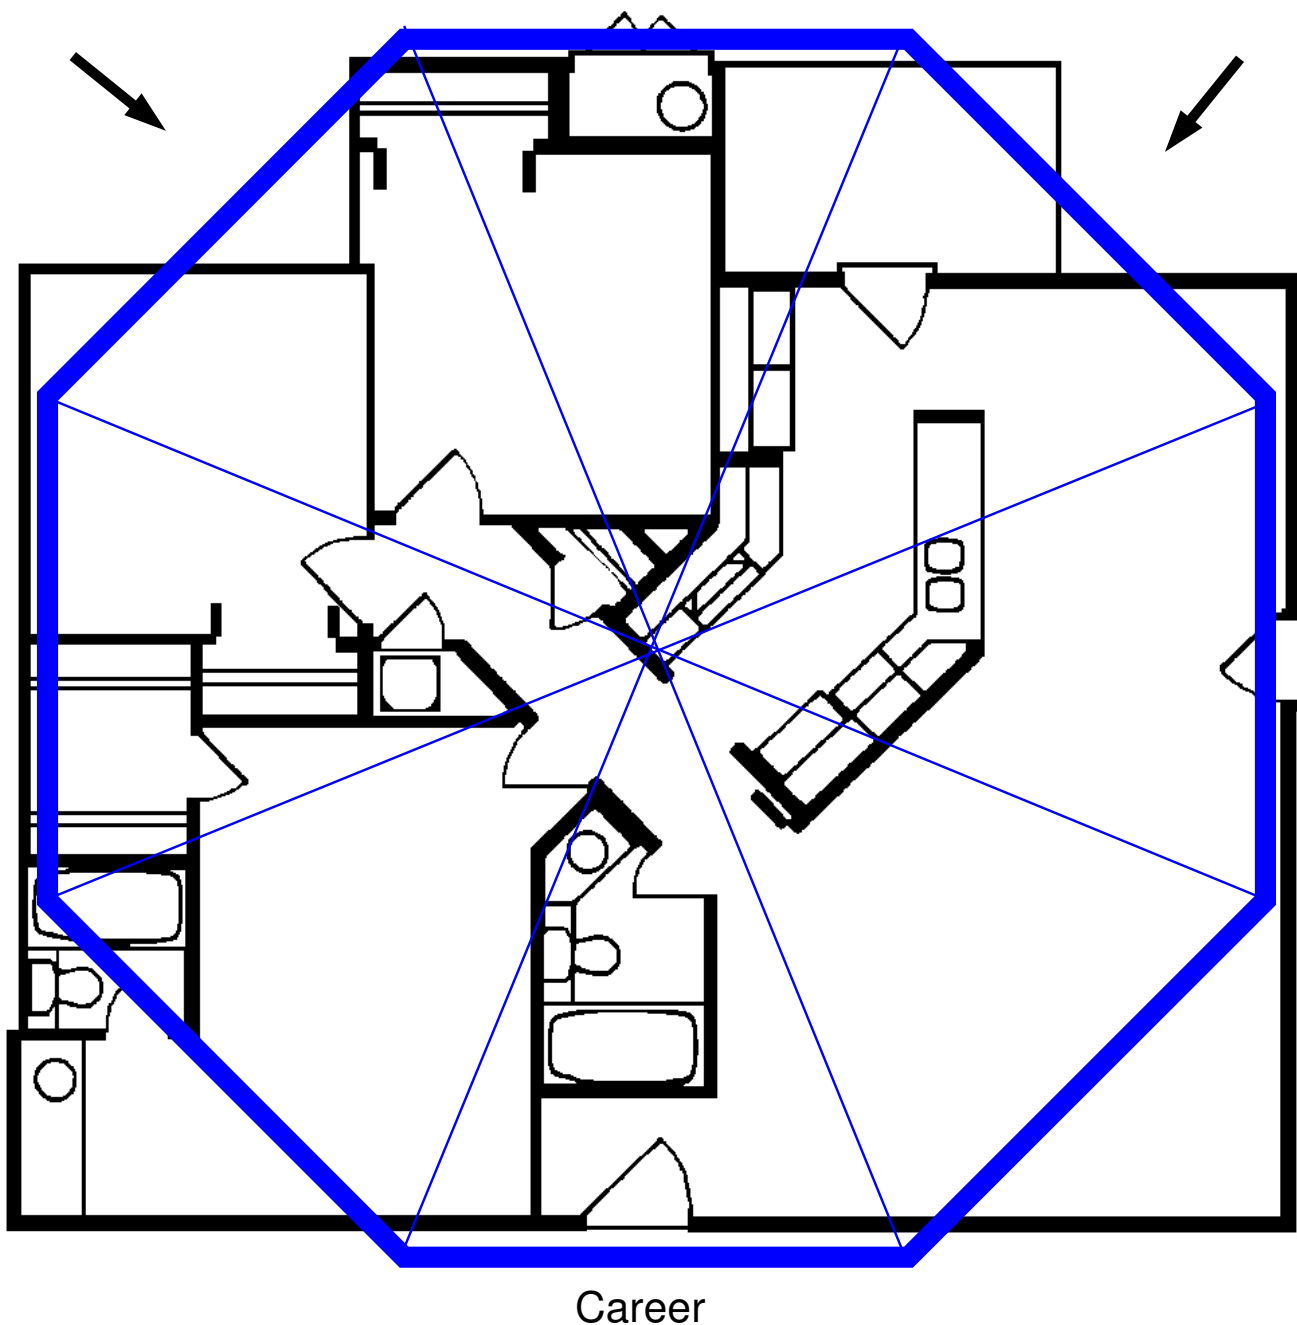

Even if the door is at an angle to the house, Career is still placed at the front door.

Ba-Gua Compass

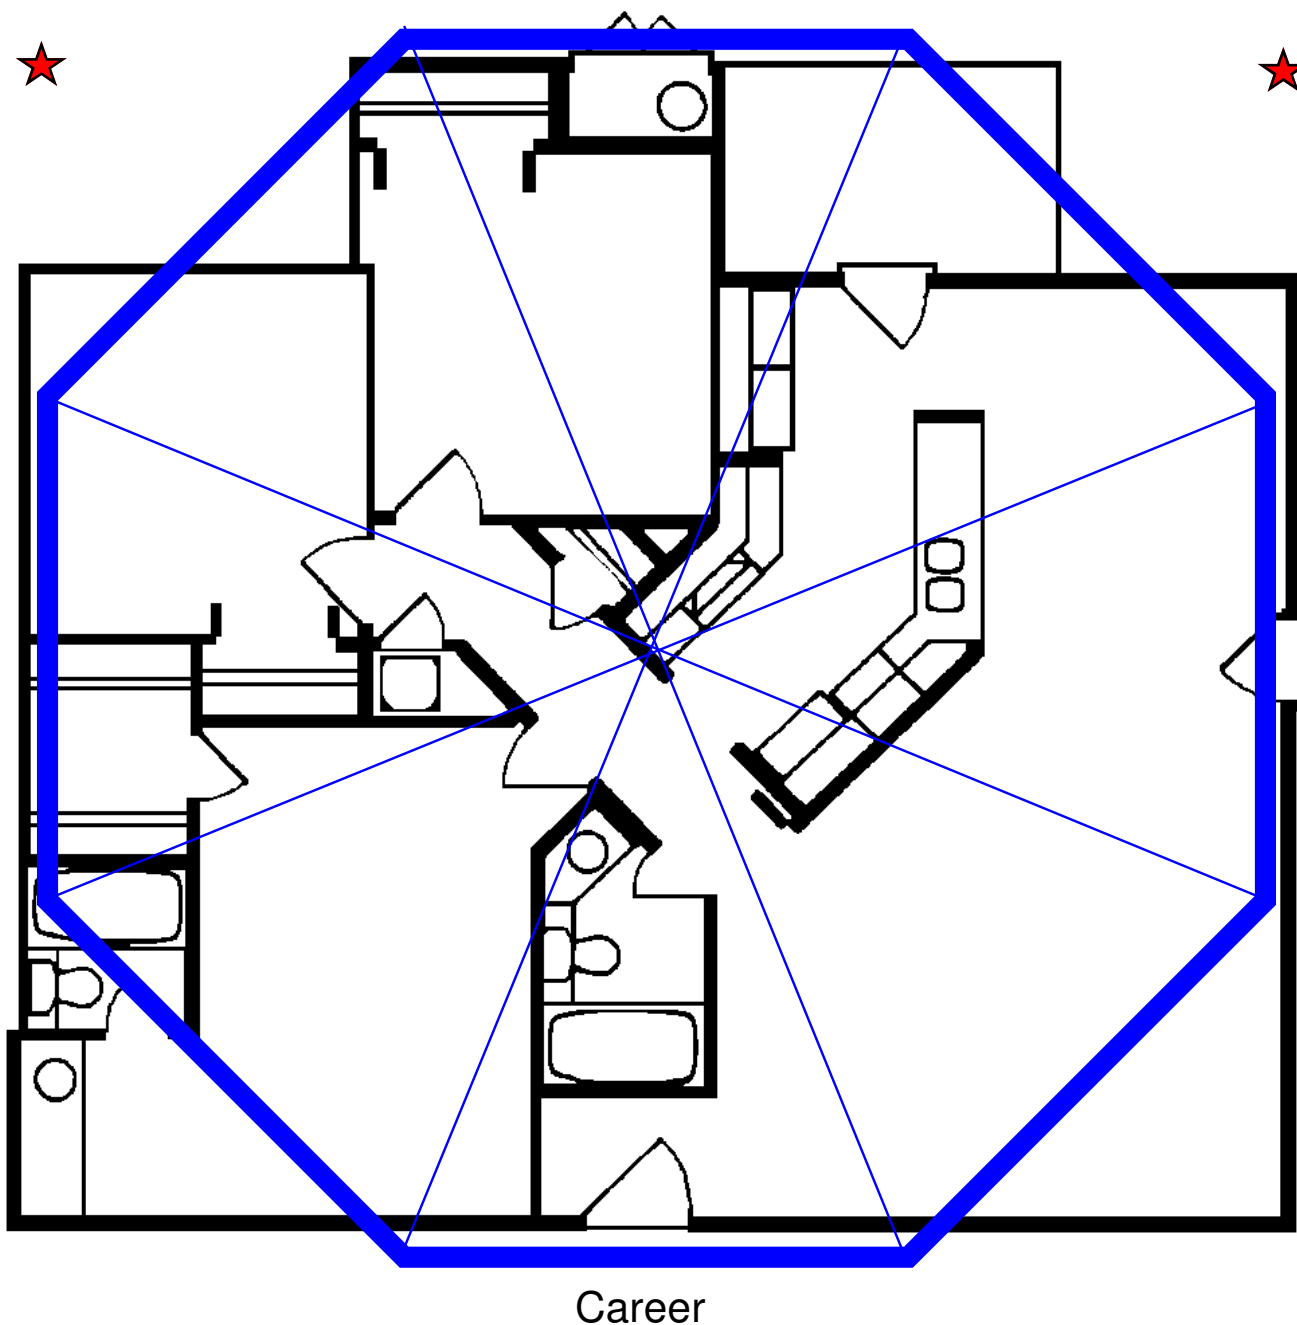

Even if the door is not centered, Career is still at the front door, making one side of the Ba-Gua smaller than the other, in this case less of the house falls in the Friends, Children and Relationship areas.

Ba-Gua Compass

Once the Ba-Gua is placed over the floor plan you can determine whether there are any missing areas. The arrows show two missing areas on this plan, Wealth is missing and a small amount of Relationship is missing. A missing area will bring a lot of focus of to that area into your life, creating more work and more obsession with that area.

Ba-Gua Compass

You can cure missing areas with crystals, plants, chimes or lights. By placing one of these objects on the red star you square off the property, allowing the chi energy to circulate through out the eight life areas.
